

Python

1 Intro

How to Get started
1st Program
Python Comments

2 Python Fundamentals

Python Variable
Python Constants
Python Literals
Python Type Conversion
Python Basic I/O
Python Operators

3 Python Flow Control

Python if...else Statement
Python for Loop
Python While Loop
Python Break and Continue
Python Pass Statement

4 Python Data Types

Python Numbers, Types,
Python Mathematics
Python List
Python Tuple
Python Sets
Python Dictionary

5 Python Functions

Python Functions
Python Function Arguments
Python Variables Scope
Python Global Keyword
Python Recursion
Python Modules
Python Packages
Python Main Functions

6 Python Files

Python Directory
Python File Management
Python CSV : R/W CSV Files

Reading CSV
Writing CSV

7 Python Exceptions

Python Exceptions
Python Exceptions Handling
Python Custom Exceptions

8 Python Objects and Class

Python Objects and Classes
Python Inheritance
Python Multiple Inheritance
Python Operator Overloading

9 Python Advanced Topics

List Comprehensions
Python Lambda Function
Python iterators
Python Namespace and Scope
Python Closures
Python Decorators
Python @property decorators
Python RegEx

10 Python Date Time

Python Datetime
Python Strftime
Python strptime
Current date and time
Python Time Module
Python Sleep()

11 Additional Topic

Precedence and Associativity of Operators in Python
Python Keywords and Identifiers
Python Asserts
Python JSON
Python Pip
Python *args and **Kwargs
