

Exponents	System Design	Time	
1	Design Distributed LRU	45min	1
2	Design Web Crawler	45min	2
3	Design a Key-Value Store	45min	3
4	Design Ticket Master	45min	4
5	Design Tinder	45min	6
6	Database Replication	5min	7
7	Design an Download service	45min	8
8	SQL vs No SQL	5min	9
9	Design a Distributed Message Queue	45min	10
10	APIs Explained	5min	11
11	How to answer System Design	10min	12
12	Design ChatGPT	45min	13
13	Design Hotel Booking Service	45min	14
14	Basics of Cloud Architecture	5min	15
15	Database Sharding and Partitioning	5min	16
16	Load Balancing for System Design	5min	17
17	Design Uber Eats	45min	
18	How does Encryption work	5min	
19	CDN in High Performance System Design	5min	
20	Database Caching for System Design	5min	
21	Memory Management	5min	
22	Design Rate Limiter	45min	
23	CAP Theorem	5min	
24	Cloud Engineering Concept	5min	
25	Design Amazon Kindle Payment	45min	
26	Design Amazon Prime Video	45min	
27	Whiteboard Use System Design	10min	
28	Design a Vending Machine	45min	
29	Design Amazon Prime Video	45min	
30	Software Design Interview	10min	
31	10 Tips for System Design	10min	
32	Design WhatsApp	45min	
33	Design an Analytics Platform	45min	
34	Design Twitter	45min	
35	Design Netflix	45min	
36	Design Calendar	45min	
37	Design Youtube	45min	
38	Design Reddit	45min	
39	Design Parking Garage	45min	
40	Design TikTok	45min	
41	Design Instagram	45min	
42	Twitter API	45min	

Short Topics

Database Replication	5min
SQL vs No SQL	5min
APIs Explained	5min
Basics of Cloud Architecture	5min
Database Sharding and Partitioning	5min
Load Balancing for System Design	5min
How does Encryption work	5min
CDN in High Performance System Design	5min
Database Caching for System Design	5min
Memory Management	5min
CAP Theorem	5min
Cloud Engineering Concept	10min
How to answer System Design	10min
Whiteboard Use System Design	10min
Software Design Interview	10min
10 Tips for System Design	10min
