

		15 Days SDE3 Plans
Week-1	Day-1	System Design and Design Pattern System design Fundamentals Read Scalability Load Balancing CAP Theorem Design an URL Shortner URL Shortner DB Structure
	Day-2	Algorithm Graphs and DP Solve 2 Hard Problems Solve 2 Dynamics Programming Problems Google Map Reduce Paper Distributed Computing Papers
	Day-3	System Design _ Distributed Databases Read Sharding, Partitioning and Indexing Design a distributed Chat system (whatsapp)
	Day-4	Coding : Advanced Data Structures Segment Tree/Fenwick Tree Problems Concurrency and Multi-threading Problems Caching Optmization Techniques
	Day-5	System Design : Caching and Rate Limiting Read CDN : Redis, Cache Eviction Policies Design Rate Limiter (Token Bucket/ Leaky Bucket)
	Day-6	System Design : Low Level and High Level Design LLD : Parking Lot System Design Classes : Objects, DB, Schema HLD : Twitter Feed API Design, DB Structure
	Day-7	Mock Interview and Debugging Mock System design interview Google Behaviorl Questions Practice (STAR Method) Debugging Exercise : Find Performance bottleneck OpenCL/Python/C++
Week-2	Day-8	OS and concurrency Read Process vs Thread Mutex vs Semapjores Solve concurent Problems

Resources
Gorkking System
Design
Gaurav Sen

Dijkstra and A*
Top Down and Bottom Up

Book of Semaphores
CPU/GPU

- Day-9 Advanced System Design : Storage and Scaling
Design Dropbox or Google Drive
read Eventual Consistency and Quorum based
- Day-10 Behavioral interview and optimization
Practice Leadership question (Ownership conflicts Mentorship)
Read Google Engineering Blog on Perf Optimization
Solve OpenCL Kernel Optimization Problem
- Day-11 Mock Interview
2 Mock Coding Interviews (Pram/Peer)
1 Mock System Design Interview
Review Google Interview Rubric
- Day-12 Debugging and Profiling
Memory Profiling with pprof
Debugging Deadlocks and Race condition
Solve Concurrency related Leetcode Problems
- Day-13 Final System Design Revision
Design Youtube / Netflix / Zoom
Practice Behavioral Questions
- Day-14 Full Mock interview
1-hpur coding challenge
1 hour system design challenge
30min behavior round
- Day-15 Relax and Review notes
Skin Through notes on past problems
Focus on Strength Areas
Sleep early before the interview

DSA

Solve 3 LeetCode

Graph

DP

Bit Manipulation

Solve 3 LeetCode

Trie Heap

Priority Queue

Solve 3 LeetCode

Recurions

Backtracking

Solve 3

Multi threading

Locking Problems

Solve 2 Concurrency Problems

LeetCode Medium hard
Problems

Solve Concurrency Related LeetCode
